

MAKE OCTOBER COUNT FOR Kids!

Name of group:

Coeur a Coeur (heart to heart)

Name of song:

Nap Decide (we're making up our mind)

LYRICS:

Haiti, love, peace, rap master, MC here's your challenge

[Chorus]

We're making up our mind, so that the country can work properly

Everywhere we go they're talking about us

Look now, what happened!

We don't want to unify ourselves so that the country can work properly (two times)

VERSE ONE

You didn't know me

But this flow I drop

Will let you know me from the foot to the head

And you could even fall down

And that's when you'll see I'm a rapper

And You'll respect me as a Master

And you, violence makers, it's time to use your conscience

To change the country, and then we stop doing bad things

SECOND VERSE

Haitians get up, so that the country can be developed

We have a nice country we're shaking it a like a curtain,

We have a nice country we're treating it like trash

The country can produce food

We need to do exploitation but we're importing instead

Haitians, get up.

[Chorus]

MAKE OCTOBER COUNT FOR Kids!

Name of group:

Coeur a Coeur (heart to heart)

Name of song:

Nap Decide (we're making up our mind)

LYRICS:

THIRD VERSE

That's now they're making up their minds to take the country where it supposed to be
Hand in hand we have to get up so that Haiti can change
Let's collaborate together to have the children move forward
Youths Hand in Hand so that Haiti can change

FOURTH VERSE

Sometimes I'm thinking and crying for Haiti
In country, they're called "pearl of Antilles"
And now it is no more
I'm asking God a chance and when this will be ceased?
Because all I'm in need of, is to see Haiti blooming (grow)
Kidnappers and thieves want to put our country down
And every day (I'm hearing), my brothers and sisters are dying
In this case, this has to change so that Haiti can grow
And when foreign people come they can say, Wow! What a nice little Country

[Chorus]

FIFTH VERSE

I have a mentality
That's having me think
What I need for Haiti
Is to see us enjoying
Stop doing violence so that can restore
Even if they're talking badly about you
One day things we'll go back to the Normal (or one day they will not)
Sometimes I'm sad, because we're too selfish
And we have to protect ourselves to not catch viruses
Haiti don't worry, a day we'll succeed.
